

Food Safety Modernization Act (FSMA)

Cheryl G. Scott

New Orleans District Food Specialist

Nashville, TN

FSMA

- Congress passed FSMA w/ overwhelming bi-partisan majorities
- President signed into law on January 4, 2011

FSMA

■ Historic

- Involves creation of new food safety system
- Broad prevention mandate & accountability
- New system of import oversight
- Emphasizes partnerships
- Emphasizes farm to table responsibility
- Developed through broad coalition

FSMA

- FSMA calls for a number of rules (aka regulations) and guidances

FSMA

FSMA will be implemented over time, and the public will have opportunities to participate in the process

FSMA

- Rulemaking process:
 - FDA proposes a rule and requests comments
 - Comments are considered and final rule issued
 - Companies comply with rule based on effective date

FSMA

- Why?

- Globalization

- Food supply more complex and hi-tech

- Shifting demographics

FSMA

- Why?
- Foodborne illness is a significant public health burden which is largely preventable

FSMA

- Foodborne illness largely preventable if everyone in global food chain held responsible and accountable at each step for controlling hazards that can cause illness

FSMA

Main themes

FSMA

- FDA has legislative mandate to require comprehensive, preventive-based controls across the food supply chain

FSMA

- Preventive controls include steps that a food facility would take to prevent or significantly reduce the likelihood of problems occurring

FSMA

■ Prevention

- cGMPs will form the foundation for preventive controls
- Training, environmental controls, allergen controls, recall plans, supplier verification

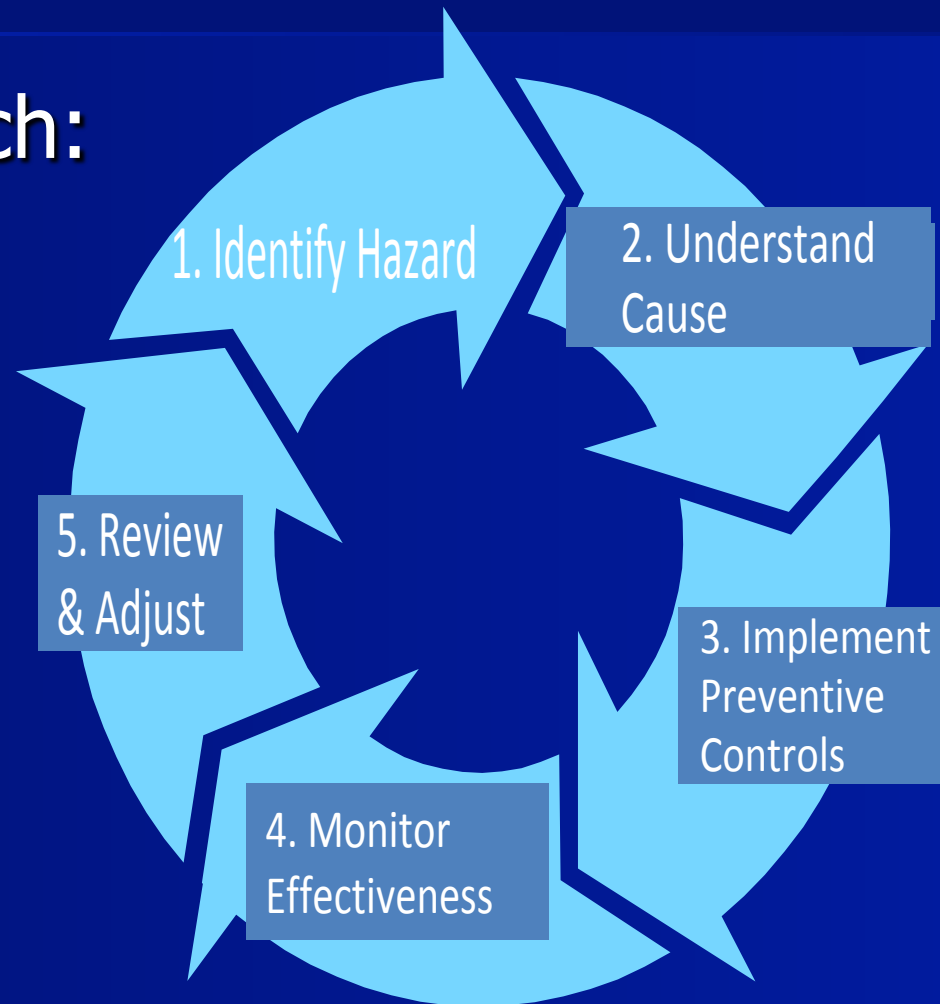

FSMA

- Prevention Standards Mandates
 - Evaluate hazards
 - Identify and implement preventive controls
 - Monitor controls and maintain records
 - Conduct verification activities

FSMA

Approach:

FSMA

Prevention- Six major rules:

- Food preventive controls
- Feed preventive controls
- Prevention of intentional contamination
- Sanitary transportation
- Foreign supplier verification
- Produce safety

FSMA

- Inspection and Compliance

- Inspection is important means of holding industry accountable for their responsibility to produce safe food

FSMA

- Inspections and Compliance
 - Based on risk
 - Innovative in approach

FSMA

- Inspection, Compliance & Response
 - Mandated inspection frequency
 - Considering new ways to inspect
 - New tools
 - Mandatory recalls
 - Expanded access to records
 - Expanded administrative detention
 - Suspension of registration
 - Enhanced product tracking
 - 3rd party lab testing

FSMA

- Inspections and Compliance
 - Records
 - Expanded records access

FSMA

- Inspections and Compliance
 - Mandatory Recalls
 - Anticipate recall authority will only be used in rare instances

FSMA

- Inspections and Compliance
 - Registration
 - Facilities required to register will have to re-register every two years between October 1 and December 31 in even number years beginning in 2012

FSMA

- Inspections and Compliance
 - Registration
 - Under certain circumstances FDA has authority to suspend a facility's registration

FSMA

- Inspections and Compliance
 - Administrative Detention
 - Authorizes FDA to administratively detain articles of food that it has reason to believe is adulterated or misbranded

FSMA

■ Imported Foods

–15% of US food supply is imported

- 50% fresh fruits
- 20% vegetables
- 75% of seafood

FSMA

■ Imported Foods

- Importers will be required to have a program to verify the food products they are bringing into the US are safe
(Foreign Supplier Verification Program)

FSMA

- Imported foods

- FDA can require certification based on risk criteria that imported foods are in compliance with food safety requirements

FSMA

■ Imported Foods

- FDA can refuse admission of imported food if inspection refused

FSMA

- Imported foods

- FDA will establish voluntary program through which imports may receive expedited review to their shipments if importer has taken certain measures to assure food safety

FSMA

- Enhanced Partnerships
 - Reliance on inspections by other agencies
 - State/local & international capacity building
 - National agriculture & food defense strategy
 - Consortium of laboratory networks
